Town Board Annual Road Inspection Minutes

Supervisors Heathman, Atkinson, and Laures and Clerk/Treasurer Brown of the Cascade Town Board met at the Cascade Town Hall for the purpose of conducting the annual road inspection tour. The road maintenance observations appear on the following pages. The following additional notes were made:

- A township policy for maximum driveway width needs to be drafted.
- The residence at 5525 St. Mary's Drive needs silt fencing due to the extensive lawn restoration and bare ground as well as an apron on the left hand end of the drive culvert.
- The residences at 5220 and 5230 7th St. NW have issues with culverts and spilling of storm water onto the roadway. Action at 5220 should be delayed until after the planned summer wedding.
- Supervisor Laures noted a concern with the drive at the Pyfferoen Farm. The property owner should be invited to a board meeting for a discussion of the concerns.
- Residents have expressed concern about commercial operations at 5515 St. Mary's Dr. The property owner should be invited to a board meeting to discuss his business operations.
- Veit on 15th St. has crushed material spilling over the berm. A letter should be sent requesting correction.
- Supervisor Laures will contact Matt Hinderman regarding the silt fence at the construction site on the private drive extension from Oak Meadow Ln.
- Supervisor Laures will follow up on the concern of an unauthorized driveway on Summit Dr. NE.
- Supervisor Atkinson noted the concern of a resident on Trapper Ln. The recent mill and overlay increased the height of the road and causes the resident's mower deck to catch on the angle between the road and the drive. Supervisor Laures will look at potential fixes.
- Mobile home demolition debris is still in the drainage way at 5516 Valleyhigh Rd. NW. A follow up note should be sent requiring clean-up.
